

The professional Socket Tester

The easy way to find out if your sockets are safe!

- · Reliable and easy to use
- Modern, ergonomic design with unique soft finger grip
- Compact, durable-designed to Safety Standard EN61010
- Clear LEDs indicate a range of wiring conditions including: Correct

01

- Missing Earth
- Live/Earth Reverse
- Live/Neutral Reverse
- Missing Neutral

Socket Tester 6860 is designed to test 230V or 110V
Sockets in one easy step.
The test procedure is simple.
The Socket Tester 6860 will light up
GREEN, GREEN, OFF and the buzzer is continuously on for correct polarity.
Any other combination indicates a fault.
Please refer to the table opposite for a list

Specifications	6860A	6860B	6860C	6860D	6860E
Voltage Range	230V	110V	230V	230V	230V
Socket Tester	(1)				(1)

of fault indications.

PEAKMETER®

Important Notes & Warnings:

- The unit is only intended to be used for short periods, typically less than 2 minutes, and must not be left plugged in for extended periods.
- Vent slots should not be covered or obstructed.
- The unit is intended for use in the vertical orientation only.
- The unit must always be checked for any sign of damage prior to use. If there are visual signs of damage do not use. Return the unit to provider for analysis. Visual signs of damage include checking the case exterior, pins and label. If any are damaged DO NOT USE.

- To verify the tester is working correctly, always first plug it into a known good socket prior to use.
- If the unit has suffered a mechanical shock such as a drop, have it checked out by provider first.
- The product has no user serviceable parts.
- The product is designed to comply with EN 61010 and is rated to IP30.
- The product will not detect reverse earth neutral.
- The Socket Tester is intended as a first level fault indication tool and only checks for correct polarity.
