

# Inhouse local operation

...

- Turn off the circuit breaker and use the electrical tester to test the power.
- Ensure the circuit breaker is off before wiring.

**Attention:**

Please disconnect the power supply before installing or removing the device for avoiding irreversible damage on the device from the electric current or some unpredictable problems such as lamp flashing.

**Step 2**

...

- Remove the old switch

**Step 3**

...

- Remove the switch and pull it away from the wall. Identify Line/Load Wire(Note:The color of your wire may be different from the color shown on the manual.)

### **Verify power is off**

We recommend you remove the faceplate from the old switch and use an electrical tester to test all wires connected to the switch to ensure there is no voltage in the circuit.

You may need to turn off more than one circuit breaker.

## **INSTALLATION**

### **Warnings**

1. Installation must be carried out by a qualified electrician in accordance with local regulations.

• • •

2. Keep the device out of the reach of children.

3. Keep the device away from water, damp or hot environment.

• • •

4. Install the device away from strong signal sources such as microwave oven that may cause signal interruption resulted in abnormal operation of the device.

5. Obstruction by concrete wall or metallic materials may reduce the effective operation range of the device and should be avoided.

6. Do NOT attempt to disassemble, repair or modify the device.

## TECHNICAL SPECIFICATIONS

Product Type	Smart Dimmer Module
V oltage	90-250V AC 50/60Hz
Max Power	75W 110V / 150W 220V
WiFi Frequency	Wi-Fi 2.4GHz IEEE 802.11 b/g/n
Operation Temp.	-10°C – +40°C
Case Temp.	Tc: +80°C (Max.)
Operation Range	≤200 m
Dims (WxDxH)	52x47x18 mm
IP Rating	IP20

## WIRING DIAGRAM

...

1. With one switch

2. Without switch

3. With 2 Way switches

## Wiring Instructions and Diagrams

1. Turn off the power supply before carrying out any electrical installation work.
2. Connect wires according to the wiring diagram.
3. Insert the module into the junction box.
4. Connect the power supply and follow switch module configuration instructions.

Notes: Put your smartphone close to the switch module when you're configuring, and make sure you have min. 50% Wi-Fi signal.

## FAQ

1. Q: What should I do if I can't configure the switch module?

1. Please check whether device is powered on.
2. Make sure your mobile and switch module are under the same 2.4 GHz WiFi network.

...

3. Whether it's in good internet conditions.
4. Make sure the password entered in App is correct.
5. Make sure the wiring is correct.

2. Q: What device can be connected to this WiFi switch module?

Most of your household electrical appliances can be, such as lamps, laundry machine, coffee maker, etc.

3. Q: What happens if the WiFi goes off?

You can still control the device connected to the switch module with your traditional switch and once WiFi is active again the device connected to module will connect automatically to your WiFi network.

4. Q: What should I do if I change the WiFi network or change the password?

You have to re-connect our WiFi switch module to the new WiFi network according to the App User Manual.

5. Q: How do I reset the device?

Power on/off device 10 times until the beeper on the module sounds continuously.

## MANUAL OVERRIDE

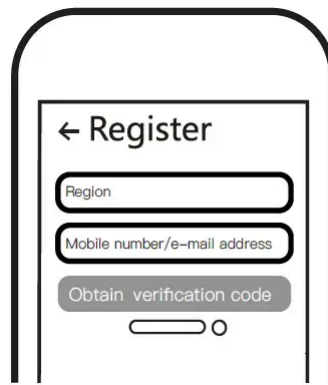

The switch module terminal reserves access of the manual override function for the end-user to switch on/off.

- Switch on/off for permanent on/off function. Notes:
  1. Both the adjustment on App and switch can be reset, the last adjustment remains in memory.
  2. The App control is synchronized with the manual switch.

## APP USER MANUAL

1. iOS App / Android App

Scan the QR code to download Smart Life App, or you can also search keyword "Smart Life" at App Store or Googleplay to download App.

2. Log in or register your account with your mobile number or e-mail address. Type in the verification code sent to your mobile or mail box, then set your login password. Click "Create Family" to enter into the App.

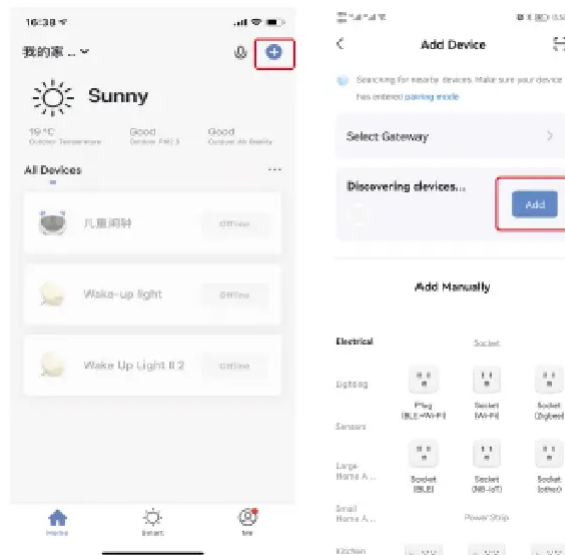

Note: This smart switch module can only be used with reset switch.

3. Pair and clear up the WiFi code with phone Bluetooth on and WiFi connected meantime. (New Updated)

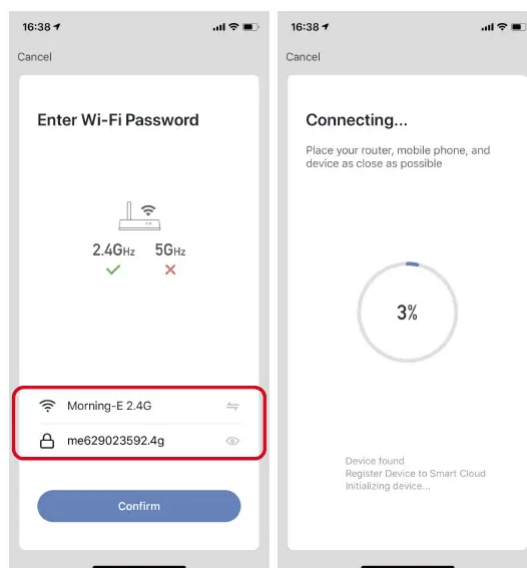

1. Make sure your phone is connected to Wi-Fi and phone Bluetooth on.

2. Open Smart Life/Tuya App and Click "+", then the prompt page will automatically show on the screen. Click "Go to add".

3. Select the device you want to add and click “+”

4. Add the device successfully, you can edit the name of the device to enter the device page by click “Done”

5. Connect to Amazon Alexa or Google Assistant for voice control, or share the devices with your families or friends.
