

PD+QC PROTOCOL FAST CHARGE CHIP

Intelligent identification chip
Automatically match output current

Overvoltage protection

Over power protection

Short circuit protection

Temperature protection

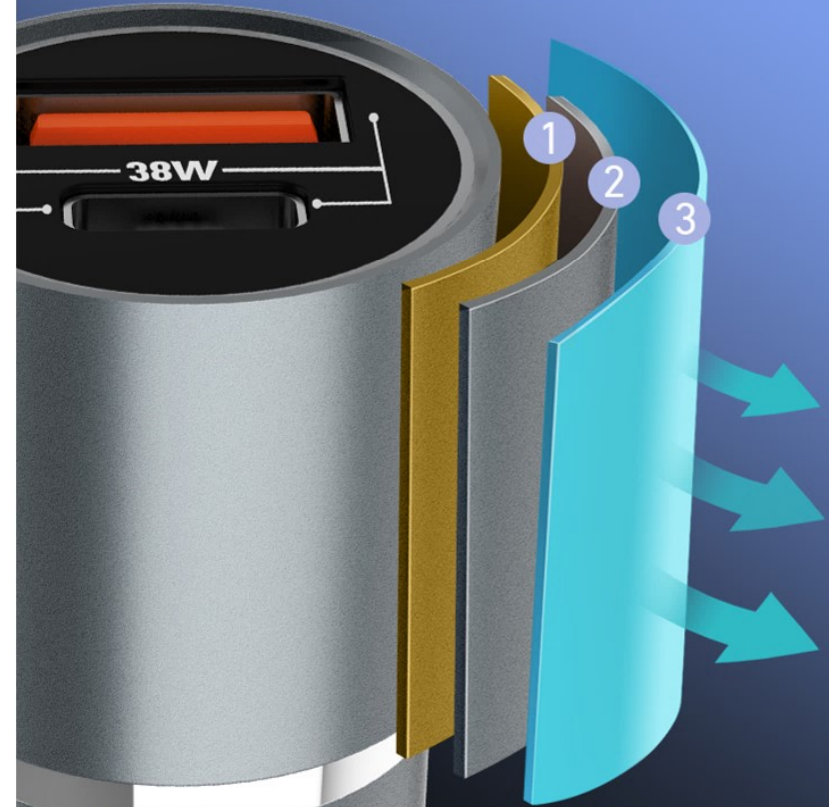

NTC battery protection

Overcurrent protection

METAL MATERIAL NO HEAT WHEN CHARGING

Metal conducts heat quickly, dissipates heat quickly,
and fast charging at low temperature is safer

1

BRASS MATERIAL

Speed up heat dissipation

2

HARDENED LAYER

Abrasion Resistant
Scratch Resistant

3

NICKEL PLATED

Silky touch,
not easy to rust
